

# MANTAS A. VIDUTIS

## PERSONAL DATA

*email* mantas@vidutis.com  
*phone* +1 301 300 6122

## WORK EXPERIENCE

*May 2011 - Current* Wakemate, San Francisco  
*Consumer Health & Wellness* Sole backend developer of the Wakelytics analytics platform and the Wakestore in-house e-commerce platform. Wrote and managed the API used by the mobile applications to retrieve and upload sleep data. Managed the storing and architecture of user sleep data. Implemented UI modifications. Work was in Python/Django with a PostgreSQL/memcached backend and JQuery/JS/Compass UI tools.

*May 2010 - May 2011* Backstop Solutions Group, Chicago  
*Accounting & CRM* Enterprise Java development on BSGs main Accounting/CRM platform, as well as original development on scalable services to sync email from Exchange 2007/2010 servers. Following an Agile (Scrum) development model with a two week development iteration. Technologies used include Thrift, Hibernate, Struts and Stripes. Testing tools include FitNesse, JUnit and Squish.

## OPEN SOURCE CONTRIBUTIONS

*2010* Mahout, Apache  
*Machine Learning & Data Mining* Designing and implementing a decision tree learning and classifying tool that runs on top of Hadoop. The concept was inspired by the Google PLANET paper on distributed decision trees. Mahout is a machine learning framework written in Java.
